

Submittal Waiver of Approval

Distributor:

Job Name:

PO#:

In order to release your order(s) with the factory, we will require a copy of the latest approved submittals for our products. If you would like to release without this information you may sign this with the understanding that you have released Boston Light Source and the specific manufacturer involved from any responsibility with regard to what is ordered. Your PO will serve as the document we order from and you will have one hundred percent responsibility for what you order. Our quote and any other documents become void as our quote is just our interpretation of what is required and must be confirmed by you and others involved in the processing of this order. By signing this you are taking the responsibility!

Please note, we strongly recommend that you not sign this and get the official documents from the persons involved as they know the intent of what they chose and what is required. If you do not want to do this please sign below that you fully understand this puts you one hundred percent responsible for the bill of material ordered.

If Approvals are received after this document has been signed, this document still leaves you responsible for what is on your purchase order. If you need to make a change to your purchase order you may request one and we will do what we can to make the change, however, depending on the factory and situation their terms and conditions will apply.

We feel the value of this document protects us as well as you, the distributor. We will be happy to process your orders as soon as we either have received a copy of the approved submittals or you have returned this document to us signed and dated.

Thank you
